

# Weighing & Inspection

For highly  
sanitary conditions

Self-tracking  
feature

Foldable  
for washdown

## WEIGHING & INSPECTION HIGH CARE HYGIENIC WEIGH BELT FEEDER

### WEIGHING & INSPECTION HIGH CARE HYGIENIC WEIGH BELT FEEDER

**Engineered to stand up to the intense  
cleaning necessary for food processing,  
chemical and pharmaceutical environments**

- Ideal for wet environments
- Stands up to powerful streams of water
- Complete control of in-feed
- Immediate operation after cleaning due to self-tracking feature
- Integrates easily with existing systems

# HIGH CARE HYGIENIC WEIGH BELT FEEDER

## HOW IT WORKS:

### State-of-the-art manufacturing

Built with continuous welds and stainless steel, the W&I HCH-WBF is designed from top to bottom for applications that require highly sanitary conditions. The W&I HCH-WBF is constructed to ensure bacteria have no chance to invade your equipment and contaminate your product.

### Applications

Ideal for wet environments, the W&I HCH-WBF's stainless steel frame and IP69K load cell stand up to powerful streams of water. The United States FDA-approved belt has continuous welding to achieve a seamless product flow while keeping harmful bacteria away.

### Easy integration

The W&I HCH-WBF can be easily integrated into existing systems, offering complete control of in-feed to ensure the correct amount of product is processed. Legal for Trade and OIML approved options are also available.

## FEATURES:

- Foldable side boards and a flip-up tail drum allow full access to the inside of the conveyor, permitting a thorough washdown
- Self-tracking feature guarantees operation after cleaning without any adjustments
- Designed to integrate easily with existing systems
- Complete control over flow regulation to ensure correct amount of product
